WHAT IS E-GOVERNMENT ?

E-GOVERNMENT - IS A GOVERNMENT THAT INTERACTS WITH PUBLIC AUTHORITIES, CITIZENS, ORGANIZATIONS IN AN ELECTRONIC FORMAT WITH MINIMAL PERSONAL (PHYSICAL) INTERACTION.

WHAT ARE THE SERVICES AND THE KEY BENEFITS OF E-GOVERNMENT FOR THE CITIZENS OF OUR COUNTRY?

PROVIDED SERVICES COULD DIFFER IN DEPENDENCY OF INTERESTED AREA, BUT THE POINT IS THAT E-GOVERNMENT ASSURE AN EFFICIENT TRUST RELATION BETWEEN CITIZEN AND GOVERNMENT, ASSURING AN HIGH OPERATIONAL EFFICIENCY SERVICE AND REDUCING COST OF RUNNING A GOVERNMENT

DESCRIBING HOME PAGE E-GOV.MD

FROM MY POINT OF VIEW, DESIGN MIGHT SOMEHOW LOOK WAY BETTER, BUT I CAN'T SAY THAT IT DON'T HAVE HIS OWN "ERGONOMIC" STYLE.

IT'S SOMETHING BETWEEN STRONG AND SIMPLE, AND PROVIDES AT THE SAME TIME THE NECESSARY AND THE MAXIMUM FOR THE CITIZENS.

ALSO I WOULD DEFINITELY REMOVE SOME INFORMATION AREA, BECAUSE IT MIGHT TANGLE THE USER.
